Identified material aspects and boundaries				
G4-17	Entities included in the organization's consolidated financial statements and those not included.	p.90 - About this Report, Boundary and Reporting Period Annual Report, Main subsidiaries, p.122: www.cemex.com/InvestorCenter/files/2015/CemexAnnualReport2015.pdf In preparing this report, we consolidated information from all our operations, but Neoris, CEMEX International Inc., and Transenergy.		
G4-18	Process for defining the report content and the Aspect Boundaries.	p.12 - CEMEX Sustainability Material Issues p.15 - CEMEX Sustainability Model p.90 - About this Report, Boundary and Reporting Period		
G4-19	Material aspects identified in the process for defining report content.	p.12 - CEMEX Sustainability Material Issues p.15 - CEMEX Sustainability Model		
G4-20	Aspect boundary for material aspects within the organization.	p.13 - CEMEX Materiality Issues Across our Value Chain		
G4-21	Aspect boundary for material aspects outside the organization.	p.13 - CEMEX Materiality Issues Across our Value Chain		
G4-22	Restatements of information provided in previous reports.	p.87 - Performance in Detail, Footnotes		
G4-23	Significant changes from previous reporting periods.	No significant changes.		
Stakeholder engagement				
G4-24	Stakeholder groups engaged by the organization.	p.12 - CEMEX Sustainability Material Issues p.78-79 - Stakeholder Engagement Mechanisms		
G4-25	Basis for identification and selection of stakeholders with whom to engage.	p.78 - Stakeholder Management Model Our Stakeholder Management Model is a step-by-step process by which a business unit identifies the opportunities to engage with stakeholders, sets specific goals, selects the most relevant stakeholders and creates an action plan. The first step to identifying stakeholders is to analyze the issues represented in our materiality matrix, Public Affairs agenda, Risk agenda and the strategic business plans. For each issue, we identify what objectives we want to achieve and the expected outcomes we are targeting. We then brainstorm the main stakeholder groups related to each issue and set of objectives.		
G4-26	Organization's approach to stakeholder engagement.	p.12 - CEMEX Sustainability Material Issues p.78-79 - Stakeholder Engagement Mechanisms		
G4-27	Key topics and concerns that have been raised through stakeholder engagement.	p.78-79 - Stakeholder Engagement Mechanisms Our materiality matrix is the result of a comprehensive analysis where we prioritized our material issues taking into consideration the number and relevance of stakeholder groups that showed interest in key issues. Our Sustainability Model reflects those issues of greatest concern to both our stakeholders and the company. We have structured this report around the higher and highest materiality issues and provided detail on how we are responding to concerns in each section of the report.		
Report profile				
G4-28	Reporting period.	p.90 - About this Report		
G4-29	Date of most recent previous report.	p.90 - About this Report		
G4-30	Reporting cycle.	p.90 - About this Report		
G4-31	Contact point.	p.90 - About this Report		
G4-32	GRI Content Index and 'in accordance' option chosen.	p.90 - About this Report 'In accordance' Comprehensive option. Download the 2015 GRI's Content Index: www.cemex.com/SustainableDevelopment/GlobalReports.aspx		
G4-33	Organization's policy and current practice with regard to seeking external assurance for the report.	p.81-82 - Our External Advisory Panel, Panel Member Statement p.88-89 - Independent Assurance Report p.90 - About this Report CEMEX Advisory Panel: www.cemex.com/SustainableDevelopment/AdvisoryPanel.aspx No relation between CEMEX and PwC. Neither our highest governance body nor senior executives are involved in seeking assurance for the organization's sustainability report.

Governance					
G4-34	Governance structure of the organization.	p.11 - Sustainability Management Structure Annual Report, p.34-37 Investor Center: www.cemex.com/InvestorCenter/Committees.aspx			
G4-35	Process for delegating authority for economic, environmental and social topics.	p.11 - CEMEX Sustainability Approach			
G4-36	Appointed executive-level position or positions with responsibility for economic, environmental and social topics.	p.10-11 - CEMEX Sustainability Approach			
G4-37	Processes for consultation between stakeholders and the highest governance body on economic, environmental and social topics.	p.11 - CEMEX Sustainability Approach p.74 - CEMEX Reporting Line- ETHOSline p.78-79 - Enhancing our Engagement with Stakeholders CEMEX Advisory Panel: www.cemex.com/SustainableDevelopment/AdvisoryPanel.aspx Investor Center: www.cemex.com/InvestorCenter/ContactUs.aspx		16	
G4-38	Composition of the highest governance body and its committees.	p.11 - Sustainability Management Structure Annual Report, p.34-37 Investor Center: www.cemex.com/InvestorCenter/Committees.aspx		5,16	
G4-39	Whether the Chair of the highest governance body is also an executive officer.	In May 2014 CEMEX appointed Rogelio Zambrano as Chairman of the Board of Directors and Fernando A. González as Chief Executive Officer.		16	
G4-40	Nomination and selection processes for the highest governance body and its committees.	We first ensure that prospective directors meet all legal qualifications and requirements to serve on the board. We then assess whether an individual is qualified based on his/her work performance, knowledge regarding issues relevant to CEMEX, and other experience. There's not a nomination process, the selection is through shareholders by a process of law.		5,16	
G4-41	Processes for the highest governance body to ensure conflicts of interest are avoided and managed.	Under Mexican law, any director who has a conflict of interest with CEMEX in any transaction must disclose that fact to the other directors and is prohibited from participating or being present during the deliberations and voting on that transaction. Code of Ethics and Business Conduct, p.21 2015 20-F, Board of Directors, p.155-158: www.cemex.com/InvestorCenter/files/2015/CEMEX2015_20F.pdf		16	
G4-42	Highest governance body's and senior executives' roles in the development, approval, and updating of the organization's purpose, value or mission statements, strategies, policies, and goals related to economic, environmental and social impacts.	p.11 - Sustainability Management Structure Investor Center: www.cemex.com/InvestorCenter/Committees.aspx			
G4-43	Measures taken to develop and enhance the highest governance body's collective knowledge of economic, environmental and social topics.	p.10-11 - CEMEX Sustainability Approach		4	
G4-44	Processes for evaluation of the highest governance body's performance with respect to governance of economic, environmental and social topics.	p.11 - CEMEX Sustainability Approach The board assesses its own performance on a variety of issues, including environmental, social, governance, and economic performance, based on reports received by the different board committees and on an annual assessment during the shareholder meeting. The evaluation is not independent and is constant given that the board has regular meetings. The actions taken in response to evaluation of the performance of economic, environmental and social topics will be addressed by the Sustainability Committee.			

GENERAL STANDARD DISCLOSURES	Page Reference or Disclosure	Omissions	SDG Link	UNCG	
G4-45	Highest governance body's role in the identification and management of economic, environmental and social impacts, risks, and opportunities.	p.11 - CEMEX Sustainability Approach Investor Center: www.cemex.com/InvestorCenter/Committees.aspx Ethics and Compliance: www.cemex.com/AboutUs/EthicsAndCompliance.aspx		16	
G4-46	Highest governance body's role in reviewing the effectiveness of the organization's risk management processes.	p.11 - CEMEX Sustainability Approach p.14 - Risks and Opportunities			
G4-47	Frequency of the highest governance body's review of economic, environmental and social impacts, risks, and opportunities.	p.11 - CEMEX Sustainability Approach			
G4-48	Highest committee or position that formally reviews and approves the organization's sustainability report.	p.11 - CEMEX Sustainability Approach			
G4-49	Process for communicating critical concerns to the highest governance body.	p.11 - CEMEX Sustainability Approach p.74 - CEMEX Reporting Line- ETHOSline Investor Center: www.cemex.com/InvestorCenter/ContactUs.aspx Ethics and Compliance: www.cemex.com/AboutUs/EthicsAndCompliance.aspx			
G4-50	Concerns that were communicated to the highest governance body.		We do not disclose details of Board meetings.		
G4-51	Remuneration policies for the highest governance body and senior executives.	Annual Report, p. 110-111 Our key executives, including our senior management, participate in a Variable Compensation Plan that distributes a bonus pool based on the company's and the individual's performance. This bonus is calculated and paid annually-part in cash and part in restricted stock shares (Certificado de Participación Ordinarios) under a Restricted Stock Incentive Plan according to responsibility level. CEMEX does not have a global compensation scheme that specifically rewards social or environmental performance.			
G4-52	Process for determining remuneration.	CEMEX offers a competitive compensation package based on the responsibility level of the position, and it is designed considering the following: the representation of the labor markets in which a given CEMEX Business Unit competes for talent; the data should be compiled from independent, professional, third party surveys; the data should include market base pay and total cash compensation of comparable companies.			
G4-53	How stakeholders' views are sought and taken into account regarding remuneration.	During the Annual Shareholders Meeting, investors have the opportunity to share their point of view regarding remuneration for CEMEX Executives and Board Members. Through this feedback, compensation is agreed.		16	
G4-54	Ratio of the annual total compensation for the organization's highest-paid individual to the median annual total compensation.	Total: 13.8, Central: 13.17, Colombia: 19.56, Costa Rica: 12.64, Mexico: 16.12, Panama: 13.08, Spain: 13.2, UK: 15.03, USA: 10.6.			
G4-55	Ratio of percentage increase in annual total compensation for the organization's highest-paid individual to the median percentage increase.	Total: 3.0%, Colombia: 4.6%, Egypt: 3.0%, France: 0.8%, Germany: 2.5%, Mexico: 3.8%, Philippines: 7.0%, Poland: 3.5%, Spain: 0.0%, UK: 1.9%, USA: 3.0%.			

GENERAL STANDARD DISCLOSURES	Page Reference or Disclosure	Omissions	SDG Link	UNCG
Ethics and integrity				
G4-56	Organization's values, principles, standards and norms of behavior.	Code of Ethics and Business Conduct, p.8-11 Company values: www.cemex.com/AboutUs/CompanyValues.aspx In CEMEX we are against any form of discrimination including and not limited to: race, creed, sex, marital status, political opinion, age, etc. In any recruitment of new employees we focus on the candidate to meet the job requirements and involve several people in the decision. In all the countries where we operate we follow our Code of Ethics and Business Conduct regarding human rights describing any kind of discrimination and procedures that could be titled to the Ethics committee to be penalized. We also hold different ethics and compliance campaigns to our institutional ETHOS model, to foster diversity in the workplace. In all countries where we operate we follow the ETHOS line campaign with direct phone lines in which employees can ask for advice or report inappropriate behavior. According to the CEMEX Code of Ethics and Business Conduct, all employees may anonymously notify about ethics violence related to work via Ethos Line - none of registered cases concerned any abuse of child labor. We extend this condition to our suppliers in some countries where there could be a higher risk such as: Bahamas, Colombia, Guatemala, Haiti, Mexico and Dominican Rep. In Dominican Republic they make sure Managers throughout the company know this to guarantee implementation.	16	10
G4-57	Internal and external mechanisms for seeking advice on ethical and lawful behavior, and matters related to organizational integrity.	p.74 - CEMEX Reporting Line-ETHOSline ETHOSline as a safe and confidential tool to ask questions and report potential violations related to ethics (anonymous option is available, except for France due to local legal requirements), compliance and governance topics. ETHOSline can be accessed either online or throughout intranet and is available to all employees. Our reporting system is now managed by The Network, a third party expert on ethics and compliance reporting. ETHOSline is open for the public in general.	16	10
G4-58	Internal and external mechanisms for reporting concerns about unethical or unlawful behavior, and matters related to organizational integrity.	p.74 - CEMEX Reporting Line-ETHOSline ETHOSline as a safe and confidential tool to ask questions and report potential violations related to ethics (anonymous option is available, except for France due to local legal requirements), compliance and governance topics. ETHOSline can be accessed either online or throughout intranet and is available to all employees. Our reporting system is now managed by The Network, a third party expert on ethics and compliance reporting. ETHOSline is open for the public in general.	16	10

Category: Economic				
Material Aspect: Economic Performance				
G4-DMA	Disclosures on management approach.	p.10-15 - CEMEX Sustainability Approach Annual Report, p.25		7
G4-EC1	Direct economic value generated and distributed.	p.3-4 - Company Snapshot Annual Report, p.30-33 We have not declared dividends since 2008. Instead, at our annual shareholders' meetings, CEMEX's stockholders approved a capitalization of retained earnings.	The economic value by region is subject to confidentiality constraints.	2,5,7,8,9
G4-EC2	Financial implications and other risks and opportunities arising from climate change.	p.14 - Risks and Opportunities Risk Management: www.cemex.com/SustainableDevelopment/RiskManagement.aspx Position paper on climate change: www.cemex.com/AboutUs/PositionPapers.aspx Carbon Disclosure Project submission: www.cdp.net	13	7
G4-EC3	Coverage of the organization's obligations arising from its benefit plan.	CEMEX complies with minimum legal coverage requirements in all countries where we operate. As of December 31, 2015, the aggregate projected benefit obligation (PBO) for pension plans and other postretirement benefits and the plan assets is as follows: PBO = 43,840 / Assets = 25,571 / Deficit = 18,269 (Amount in Millions of Mexican pesos) Annual Report, Note 19, p.56-57		
G4-EC4	Financial assistance received from governments.	No significant financial assistance was received from any government. We are unaware of any government shareholders. However, one or more governments may be an investor in a fund that holds CEMEX stocks or bonds; in that case, such ownership would not be material.		
Material Aspect: Indirect Economic Impact				
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.35-36 - Promoting the Development of Sustainable Communities		
G4-EC7	Development and impact of infrastructure investments and services supported.	p.29-30 - Implementing Resilient and Low-Impact Infrastructure p.36 - Corporate citizenship priorities p.41 - CEMEX Foundations p.83 - Performance in Detail In emerging markets, CEMEX's community affairs group uses a "Community Relations Plan" to evaluate socio-economic needs and expectations, as well as the impact of the social programs. In accord with the Plan, we assess real needs, lead and promote formal community meetings, and ensure the community is constantly informed about all programs.	2,5,7,9,11	9
G4-EC8	Significant indirect economic impacts, including the extent of impacts.	p.34-45 - Implementing a High-Impact Social Strategy p.87 - Performance in Detail CEMEX's indirect economic impacts, particularly those resulting from community initiatives, contribute to international goals and policy agendas associated with health, affordable housing, education, and environmental sustainability.	1,2,3,8,10,16	

SPECIFIC STANDARD DISCLOSURES		Page Reference or Disclosure	Omissions	SDG Link	UNCG
Category: Environmental					
Material Aspect: Energy					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.26 - CEMEX Products Assist in Green Building p.51 - From Waste to Fuel			
G4-EN3	Energy consumption within the organization.	Total energy consumption: 202,598 TJ. <ul style="list-style-type: none"> From renewable sources = 21,926 TJ (sewage sludge, wood, paper, carton, animal meal, agricultural, organic and other biomass). From non-renewable sources = 180,672 TJ (coal and anthracite, petrol coke, fuel oil, natural gas, lignite and diesel, waste oil, tires, RDF, solvents, impregnated saw dust, mixed industrial wastes, other solid fossil based waste and liquid based waste). In 2015 we substituted 26.6% of primary fuels with alternative fuels, as a result avoiding the use of 1.8 million tons of coal. Electric consumption: 7,643 GWh. CEMEX doesn't have sales to report. Please refer to the WBCSD's Guidelines for the Selection and Use of Fuels and Raw Materials in the Cement Manufacturing: www.wbcscement.org/index.php/key-issues/fuels-and-materials/guidelines-for-selection All units are available in Cement CO ₂ and Energy Protocol, Version 3.1, CO ₂ Emissions and Energy Inventory: www.cement-co2-protocol.org/en/		7,8,12,13	7,8
G4-EN4	Energy consumption outside of the organization.	Production of cement produces CO ₂ mostly from sources within the organization: combustion of fossil fuels during the calcination of limestone.	Energy consumed outside of the organization is not an issue where we focus our strategy.	7,8,12,13	8
G4-EN5	Energy intensity.	p.83 –Performance in Detail Ratio denominator: kg CO ₂ /ton of cementitious product Types of energy included in the intensity ratio: Fuels Coverage is 100% of scope 1 emissions in our cement operations (corresponding to 99.2% of all our scope 1 emissions reported under the CDP). As scope 1 represents the vast majority of our emissions there are no targets for scopes 2 and 3.		7,8,12,13	8
G4-EN6	Reduction of energy consumption.	We have reduced our specific heat consumption of clinker production by 13.8% and our specific electricity consumption of cement production by 8.3% since 1990. Regarding electricity, during 2015 we managed to consume 16.5% of our power needs in cement operations from clean energy sources. Energy included: Fuels and electricity used during the process of production Baseline: 1990 All units are available in Cement CO ₂ and Energy Protocol, Version 3.1, CO ₂ Emissions and Energy Inventory: www.cement-co2-protocol.org/en/		7,8,12,13	8
G4-EN7	Reductions in energy requirements of products and services.	p.23-28 - Providing Sustainable Products and Services p.83 –Performance in Detail, Lead in sustainable construction	We have a number of products and solutions that result in energy savings. We however consider this information confidential and key for our business strategy.	7,8,12,13	8

SPECIFIC STANDARD DISCLOSURES		Page Reference or Disclosure	Omissions	SDG Link	UNCG
Material Aspect: Emissions					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.47-48 - Optimizing Our Carbon Footprint p.54-55 - Minimizing Air Emissions and Enhancing Our Environmental Management Position Paper on Climate Change: www.cemex.com/AboutUs/PositionPapers.aspx			
G4-EN15	Direct greenhouse gas (GHG) emissions (Scope 1).	p.83 - Performance in Detail, Carbon strategy (for direct GHG emissions) p.90 - About this Report, Data Measurement Techniques Absolute CO ₂ from biomass sources= 2.1 million t CO ₂ (including biomass content of mixed fuels) Base year: 1990 following best industry practices (e. g. CSI Protocol). More information about our Scope 1 emissions can be found in our CDP submission: www.cdp.net		3,12,13,14,15	7,8
G4-EN16	Energy indirect greenhouse gas (GHG) emissions (Scope 2).	Indirect GHG emissions (Scope 2) = 3.4 million tons CO ₂ for cement p.90 - About this Report, Data Measurement Techniques Base year: 1990 following best industry practices (e. g. CSI Protocol). More information about our Scope 2 emissions can be found in our CDP submission: www.cdp.net		3,12,13,14,15	7,8
G4-EN17	Other indirect greenhouse gas (GHG) emissions (Scope 3).	Scope 3 emissions can be found in our CDP submission: www.cdp.net		3,12,13,14,15	7,8
G4-EN18	Greenhouse gas (GHG) emissions intensity.	p.83 - Performance in Detail, Carbon strategy (for direct GHG emissions) GHG emissions included in the intensity ratio: Scope 1 and 2. • Scope 1 = 672 kg CO ₂ /ton of cementitious product • Scope 2 = 53 kg CO ₂ /ton of cementitious product Denominator used: amount of cementitious products produced. Gases Included: CO ₂ , following the GHG Protocol and the WBCSD CSI Protocol.		13,14,15	8
G4-EN19	Reduction of greenhouse gas (GHG) emissions.	p.48 - Avoided Direct and Indirect CO ₂ Emissions vs. 1990 Baseline p.83 - Performance in Detail, Carbon strategy p.90 - About this Report, Data Measurement Techniques Report where the reductions in GHG emissions occurred: Scope 1. Gases Included: CO ₂ , following the GHG Protocol and the WBCSD CSI Protocol. Base year: 1990 following best industry practices (e. g. CSI Protocol).		13,14,15	8,9
G4-EN20	Emissions of ozone-depleting substances (ODS).	Our business does not create significant emissions of ozone-depleting substances.		3,12	7,8
G4-EN21	NO _x , SO _x , and other significant air emissions.	p.55 - Managing Our Air Emissions p.84 - Performance in Detail, Air quality CEMEX reports on the air emissions that the CSI Guidelines for Emissions Monitoring and Reporting in the Cement Industry identifies as the most important from the on-site stationary sources we use in our processes: www.wbcscement.org/index.php/key-issues/emissions-reduction/guidelines The standards used in the air emissions measurements, depend on the legal requirements in each country. Standards used also depend from the normal procedures used by the external companies performing the spot measurements. In the case of CEMs (Continuous Measurements), the equipment is maintained, operated, and calibrated according with the standards. Standards used for punctual measurements are EPA, ISO, and EN according to the pollutant and the country. In most cases EPA rules are used for sampling and EPA or ISO methods are used for the calculations at laboratory. All data reported in the stack emissions report is measured even continuously or spot.		3,12,14,15	7,8

G4-LA1	New employee hires and employee turnover by age group, gender and region.	p.86 - Performance in Detail, Partnership with key stakeholders, Workforce <ul style="list-style-type: none"> New hires by region: Total: 6451, Corporate: 61, Asia: 77, Mediterranean: 331, Mexico: 2114, North Europe: 885, USA: 2044, SA&C: 939. New hires by gender: Male: 5789, Female: 662 New hires by age : under 30: 2432, 31-40: 2139, 41-50: 1235, 51 & over: 645 Employee turnover by region: Total: Voluntary: 2823 / Involuntary: 5106, Corporate: Voluntary 13 / Involuntary 10, Asia: Voluntary 70 / Involuntary 60, Mediterranean: Voluntary 195 / Involuntary 277, Mexico: Voluntary 822 / Involuntary 2505, Northern Europe: Voluntary 388 / Involuntary 446, USA: Voluntary 1015 / Involuntary 663, SA&C: Voluntary 320 / Involuntary 1145. Rate of employee turnover by region: Total: Voluntary 6.55% / Involuntary 11.84%, Corporate: Voluntary 2% / Involuntary 1.5%, Asia: Voluntary 5.7% / Involuntary 4.9%, Mediterranean: Voluntary 5.7% / Involuntary 4.9%, Mexico: Voluntary 8.3% / Involuntary 25.3%, Northern Europe: Voluntary 3.9% / Involuntary 4.5%, USA: Voluntary 9.3% / Involuntary 6.1%, SA&C: Voluntary 4.9% / Involuntary 17.5%. 	Gathering information by gender and age is not permitted in some countries where we operate.	5,8	6
G4-LA2	Benefits provided to full-time employees that are not provided to temporary or part-time employees.	In addition to any differences required by law, part-time and temporary employees usually receive different bonus pay, insurance options, food allowances, pensions, and in some cases scholarship programs, than full-time employees. However our workload of Part-time employees is less than 1%. This information includes all countries where CEMEX operates.		8	
G4-LA3	Return to work and retention rates after parental leave.	p.76 - Work-life Balance In 2015 at CEMEX 3,089 employees were eligible for parental leave and 456 employees took parental leave. In CEMEX, Maternity and parental leave may vary depending on the regulations within the countries that we operate on. But all of them do agree upon the employee's return after parental leave and have policies regarding that matter.	We do not report on this disclosure since this breakdown is not a factor in our decision-making process.	5,8	6
Material Aspect: Labor/management relations					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.70-71 - Engaging and Retaining our Talent CEMEX HR Policy Statement: www.cemex.com/SustainableDevelopment/files/CemexPolicyStatement.pdf			
G4-LA4	Minimum notice periods regarding operational changes.	On average the minimum days required by law or agreed with unions is 30 days notice regarding organizational or operational changes, CEMEX provides an average notice period of 34 days. Even though, in some of the countries where we operate the law do not establish minimum days of notice period, CEMEX has always looked for giving a fair treatment to their employees and in those situations where the staff reductions are required (by decision of the company) we look to provide a reasonable time for transition. We provide better severance package than the ones established by the law and in some countries and at certain levels we even support with other services, such as head hunting (relocation).		8	3

G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p. 75 - Equal Opportunity and Fair Compensation			
G4-LA13	Ratio of basic salary and remuneration of women to men.	Senior Management: 1.13 Middle Management: 1.32 Other Employees: 1.08 Workers: 1.03 Overall: 1.07 These calculations include all countries where CEMEX operates.		5,8,10	6
Sub-Category: Human Rights					
Material Aspect: Investment					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Code of Ethics and Business Conducts p.74 - Human Rights CEMEX HR Policy Statement: www.cemex.com/SustainableDevelopment/files/CemexPolicyStatement.pdf			
G4-HR1	Significant investment agreements and contracts that include human rights clauses.	We include a series of clauses in all (100%) contracts, regardless of the investment size, i.e. our contracts now require all partners to warrant that they abide and will continue to abide internationally recognized human rights standards, including the Universal Declaration of Human Rights and the ILO's Declaration of Fundamental Principles and Rights of Work. A significant agreement is one that is deemed to materially impact the company's consolidated results, which roughly translates to agreements or investments valued at USD300 million or more. Significant agreements and investments are disclosed in SEC filings and/or through our website.			2
G4-HR2	Employee training on human rights policies or procedures.	p.74 - Ethics-related Training Sessions in 2015 We provided a total of 49,336 training hours on Human Rights-related issues that are relevant to our operations covering 63% of our employees.			1

SPECIFIC STANDARD DISCLOSURES		Page Reference or Disclosure	Omissions	SDG Link	UNCG
Material Aspect: Non-discrimination					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Code of Ethics and Business Conducts p.84 - Diversity Code of Ethics and Business Conduct, p.8			
G4-HR3	Incidents of discrimination and corrective actions taken.	The Ethics Committee received 8 reports related to discrimination. 2 of the discrimination-related reports received remains in process. 4 of the reports we were able to confirm that discrimination occurred, and 2 other accusations were false. In all reports received, measures are implemented and monitored by local ethics committees comprising high level executives from the local business unit.		5,8,16	6
Material Aspect: Freedom of association and collective bargaining					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Code of Ethics and Business Conducts p.75 - Freedom to Associate			
G4-HR4	Operations and suppliers identified in which the right to exercise freedom of association and collective bargaining may be violated.	No risks to freedom of association or collective bargaining were identified. 27,852 of our employees (64%) are represented by a union. CEMEX fully acknowledges, supports, and respects its employee's rights to freedom of association, provided all actions are legal and that they do not interfere with the employees' duties and responsibilities. We also engage with employees through: collective bargaining processes, quarterly meetings of the board of directors with workers, monthly meetings by specific departments, and individual meetings within departments. Supplier Code of Conduct: www.cemex.com/Suppliers/CodeOfConduct.aspx		8	3
Material Aspect: Child labor					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Code of Ethics and Business Conducts p.76 - Child Labor Code of Ethics and Business Conduct, p.9			
G4-HR5	Operations and suppliers identified as having significant risk for incidents of child labor.	No risks of this kind were identified. At CEMEX we are strongly committed to protecting and respecting the rules regarding child labor in every country we operate. Our company policy is to only hire people who are 18 or older. Our selection and hiring process requires the presentation of government-issued identification, as well as a rigorous investigation of the person's information. This process also extends to our contracted labor suppliers.		8,16	5
Material Aspect: Forced or compulsory labor					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Code of Ethics and Business Conducts p.76 - Forced Labor & Safe Work Environment Code of Ethics and Business Conduct, p.9			
G4-HR6	Operations and suppliers identified as having significant risk for incidents of forced or compulsory labor.	In CEMEX no one is forced to perform hazardous tasks against their will or tasks that are detrimental to their health or well-being. Our operations in every country comply with the local laws and we take measures to prevent workers from falling into debt bondage through company loans. All our employees are free to leave the company anytime and we do not offer any benefit used as a leverage to force labor.		8	4
Material Aspect: Security practices					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Human Rights			
G4-HR7	Security personnel trained in the organization's human rights policies.	In 2015, 49,336 hour-long training sessions were conducted with employees regarding policies and procedures related to human rights, harassment and Code of Ethics. Part of this training goes to security personnel as we do not differentiate per type of employee while implementing our Human Rights training program. We apply the same level of training for subcontractors as for our employees.		16	1
Material Aspect: Indigenous rights					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Human Rights Code of Ethics and Business Conduct, p.9			
G4-HR8	Violations involving rights of indigenous peoples.	We are not aware that any violations involving rights of indigenous people have taken place in our operations.		2	1

SPECIFIC STANDARD DISCLOSURES		Page Reference or Disclosure	Omissions	SDG Link	UNCG
Material Aspect: Assessment					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Human Rights			
G4-HR9	Operations that have been subject to human rights reviews or impact assessments.	CEMEX is fully committed to the Universal Declaration of Human Rights and the ILO's Declaration of Fundamental Principles and Rights of Work. All our operations are required to respect our Code of Ethics that includes a comprehensive section of Human Rights. Although during the year no legal process was reported in relation to Human Rights violations in our operations, we do have permanent efforts intended to assure the awareness on the topic and the fulfillment to its principles. We have engaged with Shift, an independent, non-profit center that specializes in business and human rights and together we developed a framework that assesses CEMEX's current policies, processes and practices, in order to identify potential gaps and prioritize our company's efforts and next steps. Furthermore, in 2014 our CEO signed and approved CEMEX Corporate Human Rights Policy. In the other hand, during 2015 6,787 employees received training on different Human Rights related topics. We have also extended our commitment to respect Human Rights to our supply chain through the Sustainability Supplier Program managed by an external party that incorporates Human Rights as one of the evaluation criteria. We also include Human Rights clauses in our contracts and purchase orders. Moreover, CEMEX risk management function, structured into global, regional and local levels, and composed of a network of more than 50 risk management professionals across the company, also monitors and assesses any type of potential risk including human rights violations and presents these alarms to the Risk Management Committee at the Executive Level every six months.			1
Material Aspect: Human rights grievance mechanisms					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Human Rights			
G4-HR12	Grievances about human rights impacts filed, addressed, and resolved.	During 2015 no grievances related to human rights violations were reported through any formal mechanisms. Employees are encouraged to report any potential human rights violation to the Human Resources Department, the Unit Ethics Committee or through our ETHOSline.		16	1
Sub-Category: Society					
Material Aspect: Local communities					
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach			
G4-SO1	Operations with implemented local community engagement, impact assessments, and development programs.	p.87 - Performance in Detail, Sites conducting social impact assessments and Sites with community Engagement Plans p.34 - Implementing a High-Impact Social Strategy Community relations are managed at the country level so that they can be tailored to the particular circumstances of each locale. Before we open, close, or change local operations, we talk with our neighbors in order to improve our mutual understanding of needs and concerns. Approximately 98% of our operations have community engagement plans, which help us to identify the communities near our operations, our impacts on them, and their needs; and then develop and implement effective, site-specific social programs. Our Environmental Management System includes a requirement that all business units consider community concerns when identifying the potential effects of our operations. Though details are determined locally, the community plans must be in accordance with CEMEX's social-investment guidelines. These internal guidelines provide a common framework for the planning and execution of all of our social-investment strategies: programs we run directly, programs conducted through partnerships with stakeholders, cash and in-kind donations, and employee volunteer efforts. Our Neighbors: www.cemex.com/SustainableDevelopment/OurNeighbors.aspx			1
G4-SO2	Operations with actual and potential negative impacts on local communities.	There were no reports that we are aware of on significant negative impacts on communities.		1,2	1

SPECIFIC STANDARD DISCLOSURES	Page Reference or Disclosure	Omissions	SDG Link	UNCG
Material Aspect: Anti-corruption				
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Global Compliance Program		
G4-SO3	Operations assessed for risks related to corruption and the significant risks identified.	During 2015, 15 CEMEX operations were classified as medium to high risk countries for perceived corruption based on Transparency International. All of them were assessed for risks related to corruption and no incidents were found. In addition, all supplier contracts include not only anti-bribery clauses, but also antibribery certification letter. Moreover, CEMEX makes its best effort to analyze suppliers' historical corruption behavior prior to signing a contract.	16	10
G4-SO4	Communication and training on anti-corruption policies and procedures.	We use communication resources to distribute our global antibribery policy to all (100%) governance body members and employees. Additionally, 100% have access to the Code of Ethics which contains a compliance chapter related to anti-bribery manners were all forms of corruption are explicitly rejected by CEMEX. Our training analysis is focused on identifying the most vulnerable geographic and functional areas. 6,787 employees trained on general topics of Code of Ethics, including bribery, conflict of interest, reporting mechanisms and solving authorities. Regarding our business partners, all (100%) supplier contracts include not only anti-bribery clauses, but also anti-bribery certification letter.	By 2018, we will broaden the analysis of audiences trained.	16 10
G4-SO5	Confirmed incidents of corruption and actions taken.	There were no incidents that met the Foreign Corrupt Practices Act and UK Antibribery Act standard for corruption, nor were any legal cases regarding corrupt practices by either our organization or our employees concluded during the reporting period. We continuously monitor our employee's behavior and compel our employees to report any corruption acts through ETHOSline.	16	10
Material Aspect: Anti-competitive behavior				
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Global Compliance Program		
G4-SO7	Legal actions for anti-competitive behavior, anti-trust, and monopoly practices and their outcomes.	Any relevant fines or non-compliance cases are included in our Annual Report, Contingencies, p.114-120	16	
Material Aspect: Compliance				
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.74 - Global Compliance Program		
G4-SO8	Fines and non-monetary sanctions for non-compliance with laws and regulations.	Any relevant fines or non-compliance cases are included in our Annual Report, Contingencies, p.114-115	16	
Sub-Category: Product responsibility				
Material Aspect: Product and service labeling				
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.67 - Satisfied Customers and Responsible Suppliers		
G4-PR3	Product and service information and labeling.	At a local level we make available to all our customers key information about our products, including: key features, applications, safety precautions, information on how to use them, information on how to store them, components, contents, and other information. To see an example of these data sheets, please visit: www.cemexcolombia.com/SolucionesConstructor/files/UsoGeneral.pdf www.cemex.co.uk/documentsanddownloads.aspx	The great majority of our products are sold in bulk without labeling or packaging.	12
G4-PR4	Incidents of non-compliance with regulations and voluntary codes concerning labeling.	The company has not identified any non-compliance with regulations and voluntary codes during the reporting year.		16
G4-PR5	Surveys measuring customer satisfaction.	p.68 - Creating a Customer-Centric Climate p.87 - Performance in Detail, Countries that conduct regular customer satisfaction surveys		
Material Aspect: Customer privacy				
G4-DMA	Disclosures on Management Approach.	p.10-15 - CEMEX Sustainability Approach p.67 - Satisfied Customers and Responsible Suppliers		
G4-PR8	Substantiated complaints regarding breaches of customer privacy.	The company has not identified any substantiated complaint during the reporting year.		16

G4-EC5	Ratios of standard entry level wage compared to local minimum wage.	p.76 - Comparative Wage Rate 2015	1,5,8 6
G4-EC6	Proportion of senior management hired from the local community.	p.75 - Equal Opportunity and Fair Compensation p.87 - Performance in Detail, Countries with practices to promote local hiring (%)	8 6
Category: Environmental			
Aspect: Procurement practices			
G4-DMA	Disclosures on Management Approach.	p.55 - Implementing CEMEX Environmental Management System p.69 - Promoting Supplier Sustainability	1,5,8
G4-EC9	Proportion of spending on local suppliers.	p.87 - Performance in Detail, Purchases sourced from locally-based suppliers (%) We believe that local sourcing is, in and of itself, a sustainable business practice. It creates jobs, which in turn stimulate local economies, while developing new skills among local workers. Whenever feasible, we support small, locally based suppliers everywhere we operate. The definition of local supplier is specific to each country where we operate and complies with local legislations. The exact criteria used to select suppliers vary from country to country, but always includes cost, quality, and delivery time. Sustainability principles are also increasingly factored into the decision.	12
Aspect: Materials			
G4-DMA	Disclosures on Management Approach.	p.55 - Implementing CEMEX Environmental Management System p.51 - From waste to fuel p.53 - Advancing towards a Circular Economy	
G4-EN1	Materials used by weight or volume.	Proprietary information.	8,12 7,8
G4-EN2	Percentage of materials used that are recycled input materials.	p.51 - From waste to fuel p.85 - Performance in Detail, Volume of returned ready-mix concrete material from total delivered p.85 - Performance in Detail, Secondary and recycled aggregates used as a direct replacement of primary aggregates p.85 - Performance in Detail, Waste management	8,12 8
Aspect: Water			
G4-DMA	Disclosures on Management Approach.	p.55 - Implementing CEMEX Environmental Management System p.58 - Managing Water to Minimize Use Water Policy: http://www.cemex.com/SustainableDevelopment/files/CemexWaterPolicy.pdf	
G4-EN8	Water withdrawal by source.	p.84 - Performance in Detail, Water management To report our water withdrawals by sources CEMEX complies with the Water Management Methodology created in 2012 in collaboration with the IUCN, the latter contains a set of key performance indicators (KPIs) and their definitions, which are in line with those agreed to within the Cement Sustainability Initiative (CSI). It also defines operational boundaries, four levels of accuracy for water measurement, guidance on how to report the information and recommendations for meter calibration and maintenance.	6 7,8
G4-EN9	Water sources significantly affected by withdrawal of water.	p.84 - Performance in Detail, Water management p.58 - Managing Water to Minimize Use 9% of our sites are located in areas of potential water stress. In case a water source would be located in a protected area we would acknowledge this through our BAP standard mechanism.	6 8

SPECIFIC STANDARD DISCLOSURES		Page Reference or Disclosure	SDG Link	UNCG
G4-EN10	Percentage and total volume of water recycled and reused.	p.84 - Performance in Detail, Water management To report our water withdrawals by sources CEMEX complies with the Water Management Methodology created in 2012 in collaboration with the IUCN, the latter contains a set of key performance indicators (KPIs) and their definitions, which are in line with those agreed to within the Cement Sustainability Initiative (CSI). It also defines operational boundaries, four levels of accuracy for water measurement, guidance on how to report the information and recommendations for meter calibration and maintenance. According to KPIs definitions currently agreed on the CSI we will be reporting on the % of sites with recycling facilities.	6,8,12	8
Aspect: Biodiversity				
G4-DMA	Disclosures on Management Approach.	p.55 - Implementing CEMEX Environmental Management System Biodiversity Policy: www.cemex.com/SustainableDevelopment/files/CemexBiodiversityPolicy.pdf		
G4-EN11	Operational sites in protected areas and areas of high biodiversity value.	p.59 - 2015 Biodiversity Management and Quarry Rehabilitation Progress Biodiversity: www.cemex.com/SustainableDevelopment/Biodiversity.aspx	6,14,15	8
G4-EN12	Description of significant impacts on biodiversity in protected areas.	p.58 - Implementing Biodiversity Action Plans Biodiversity: www.cemex.com/SustainableDevelopment/Biodiversity.aspx Position paper on Environmental Management and Biodiversity: www.cemex.com/MediaCenter/files/CEMEX_POSITION_on_Env_Man_Bio.pdf	6,14,15	8
G4-EN13	Habitats protected or restored.	p.58-61 - Preserving Land, Biodiversity and Water We have partnerships with the International Union for Conservation of Nature, BirdLife International, and local partners of BirdLife in different countries to help us protect and restore habitats. All rehabilitation plans are compliant with local regulation. As part of its biodiversity policy, CEMEX believes that rehabilitation to restore biodiversity is the best available tool to reach a no net loss on biodiversity. However, CEMEX acknowledges that offsetting may be appropriate for some quarries where it would not be possible to restore biodiversity once restoration is complete. For this reason, CEMEX is currently involved in some of the discussions were offsets for the cement industry is discussed, and also testing some of the offsetting methodologies that are currently being issued. In recognizing its responsibility for effective quarry rehabilitation, CEMEX follows the Guidelines on Quarry Rehabilitation published by the Cement Sustainability Initiative in December 2011. These guidelines present a consensus view of its members on the principles of quarry rehabilitation. See more at www.wbcscement.org/index.php/key-issues/biodiversity/quarry-rehabilitation	6,14,15	8
G4-EN14	IUCN Red List species and national conservation list species with habitats in areas affected by operations.	18% of our active quarries (64 active quarries) are located in areas with high biodiversity value, where red-listed species might be present. CEMEX is working to implement a Biodiversity Action Plan (BAP) in all of them, in order to minimize/eliminate the risks and threats associated to their conservation level. The Scoping Study that CEMEX and BirdLife International completed in 2010 found that 52% of those sites overlapping with important biodiversity areas overlap with the ranges of Globally Threatened Bird Species (birds identified as Critically Endangered, Endangered, or Vulnerable per the IUCN Red List of Threatened Species), meaning those species may be present on the sites.	6,14,15	8
Aspect: Effluents and waste				
G4-DMA	Disclosures on Management Approach.	p.53 - Advancing towards a Circular Economy p.55 - Implementing CEMEX Environmental Management System		
G4-EN22	Water discharge by quality and destination.	p.58 - Water Footprint p.84 - Performance in Detail, Water management Our water treatment makes discharges quality always compliant with local legislation.	3,6,12,14	8
G4-EN23	Weight of waste by type and disposal method.	p.85 - Performance in Detail, Waste management We have created a collection system to gather this information and we continue working on rolling out the definitions and methodology to collect this data by disposal method. All our wastes are disposed of following local regulations, and our internal Waste Guidelines. Our Guidelines distinguish between waste reused, waste recovered, waste recycled and waste that remains as is (disposed to landfill). From here, these waste streams are classified as hazardous or non-hazardous, disposed externally or internally, as defined by country regulations.	3,6,12	8
G4-EN24	Number and volume of significant spills.	p.85 - Performance in Detail, Environmental Management We had two Category 1 incidents in 2015. Category 1 incidents are significant environmental spills as defined by the CEMEX incident reporting procedure.	3,6,12,14,15	8
G4-EN25	Weight of transported, imported, exported, or treated waste deemed hazardous.	p.85 - Performance in Detail, Waste management 0% of hazardous waste shipped internationally.	3,12	8

SPECIFIC STANDARD DISCLOSURES	Page Reference or Disclosure	SDG Link	UNCG	
G4-EN26	Identity, size, protected status, and biodiversity value of water bodies and habitats affected by the organization's discharges of water.	Biodiversity Scoping Study: www.cemex.com/SustainableDevelopment/Biodiversity.aspx	6,13,14,15	8
Aspect: Products and services				
G4-DMA	Disclosures on Management Approach.	p.22-33 - Creating Resilient and Efficient Infrastructure and Buildings		
G4-EN27	Mitigation of environmental impacts of products and services.	p.22-33 - Creating Resilient and Efficient Infrastructure and Buildings	6,8,12,13,14,15	7,8,9
G4-EN28	Percentage of products sold and their packaging materials that are reclaimed by category.	We do not consider packaging a material issue for our industry. In many of the countries where we operate, the majority of our cement production is sold in bulk without packaging. Concrete and aggregates do not require any packaging.	8,12	8
Aspect: Transport				
G4-DMA	Disclosures on Management Approach.	p.55 - Implementing CEMEX Environmental Management System		
G4-EN30	Environmental impacts of transporting products and other goods and materials for the organization's operations.	Carbon Disclosure Project submission: www.cdp.net Across our operations we implement several initiatives in order to improve our transport environmental performance and minimize its impact on the environment. For example in the UK and France see: www.cemex.co.uk/sustainablelogistics.aspx , www.cemex.com/SustainableDevelopment/cases/FranceSustainableTransport.aspx These practices are extended across other CEMEX Countries. In Mexico for example we have an initiative to enhance routes and ship the largest loads possible. We also renewed our transportation equipment, investing in more environmentally friendly trucks with engines that recycle CO ₂ gases. We are currently working on developing a global platform to share best practices on transport and logistics that can be replicated across the company.	11,12,13	8
Aspect: Overall				
G4-DMA	Disclosures on Management Approach.	p.55 - Implementing CEMEX Environmental Management System		
G4-EN31	Environmental protection expenditures and investments.	Total environmental capital investments: US\$86 million	7,9,12,13,14,15,17	7,8,9
Aspect: Supplier environmental assessment				
G4-DMA	Disclosures on Management Approach.	p.69 - Promoting Supplier Sustainability Supplier Code of Conduct: www.cemex.com/Suppliers/CodeOfConduct.aspx		
G4-EN32	Percentage of new suppliers that were screened using environmental criteria.	p.69 - Promoting Supplier Sustainability p.87 - Performance in Detail, Countries with a process to screen suppliers in relation to social and environmental aspects 100% of our new suppliers sign our Code of Conduct, that takes into account issues like: Environmental and biodiversity engagement, Ensure basic conditions of Labor and Promote high priority on Health and Safety, Strengthening Human Rights, Enhance the Diversity and Equality. For more information visit: www.cemex.com/Suppliers/CodeOfConduct.aspx As a random test, during 2015 almost 75% of new suppliers were screened using environmental criteria.		8
G4-EN33	Actual and potential negative environmental impacts in the supply chain and actions taken.	We have local initiatives to assess suppliers in each country. In 2015, 2, 681 suppliers were evaluated using Environment Criteria. From this group, 33 suppliers were identified to have potential impacts with issues related to environment and based on the resulting findings a customized action plan was defined for each of them.		8
Aspect: Environmental grievance mechanisms				
G4-DMA	Disclosures on Management Approach.	p.55 - Implementing CEMEX Environmental Management System p.73 - Strengthening Business Ethics, Compliance and Transparency		
G4-EN34	Number of environmental grievances.	Any relevant fines or non-compliance cases are included in our Annual Report, Contingencies, p.114-120	16	8

G4-PR1	Significant product and service categories for which health and safety impacts are assessed.	The health and safety aspects of all of our products are considered at all life cycle stages. We strive to consistently ensure that our products are safe to transport, store, handle, use and dispose of. However, some products may carry risks to people's health and safety if the proper precautions are not taken. To prevent such risks, we have compiled a range of product safety sheets which outline any main hazards and precautions that should be taken when handling these products. For more information, local sales offices should be contacted.
